Chemistry for Changing Times-John W. Hill 1999-06-01

Chemistry for Changing Times-John W. Hill 2019-01-04 For non-majors introductory chemistry courses. Engage students with contemporary and relevant applications of chemistry Chemistry for Changing Times has defined the liberal arts course and remains the most visually appealing and readable introduction for the subject. Abundant applications and examples fill each chapter and enable students of varied majors to readily relate to chemistry. For the 15th Edition, author Terry McCreary and new coauthors Marilyn Duerst and Rill Ann Reuter, introduce new examples and a consistent model for problem solving. They guide students through the problem-solving process, asking them to apply the models and combine them with previously learned concepts. New problem types engage and challenge students to develop skills they will use in their everyday lives, including developing scientific literacy, analyzing graphs and data, recognizing fake vs. real news, and creating reports. New relevant, up-to-date applications focus on health & wellness and the environment, helping non-science and allied-health majors taking the course to see the connections between the course materials and their everyday lives. Also available with Mastering Chemistry By combining trusted author content with digital tools and a flexible platform, Mastering personalizes the learning experience and improves results for each student. The fully integrated and complete media package allows instructors to engage students before they come to class, hold them accountable for learning during class, and then confirm that learning after class. Note: You are purchasing a standalone product; Mastering Chemistry does not come packaged with this content. Students, if interested in purchasing this title with Mastering Chemistry, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and Mastering Chemistry, search for: 0134879619 / 9780134879611 Chemistry for Changing Times Plus Mastering

Hill 2006-08-01 This Study Guide was written specifically to assist you with Chemistry for Changing Times, 11th Edition, by presenting, in condensed form, the major concepts, theories, facts and applications found in the text. Every chapter is keyed to the main text and is presented in six sections: Key Terms - correspond to bold-faced terms in the text and represent key expressions in the language of chemistry. Chapter Summaries - provide an overview of material to be covered and an outline that can be tailored and annotated with lecture material. Chapter Objectives - alert you to essential concepts and principles covered in the chapter and serve as checkpoints when you study for exams. Discussion - food for thought, along with common-sense commentary about chemistry. Examples Problems with Additional Problems - modeled on the text problems, these examples will help you sharpen your problem-solving skills. Self-Test and Answers - practice exams that are designed for self-assessment and test preparation. Book jacket.
